FM Service

**Issues/Program List: 4th Quarter 2020
October, November and December 2020**

Description of the issue:
2020 Census Participation

Program	Date	Time	Description of the Program/Segment
Here & There	9/21/2020	3: 00 PM	So much depends on getting a correct count of residents of America for the 2020 census, so why is the Trump Administration trying so hard to mess with and shorten the process of counting? Julia Sclafani of Searchlight NM went to a small southern New Mexico town to show what's at stake.
Southwest Spotlight	10/14/20	2:00 PM	Interview Karl Terry executive director of the Roosevelt County Chamber of Commerce concerning the importance of each household willingly participating in the 2020 US Census.
	10/16/20	9:00 AM	

Description of the issue:
Living with COVID-19

Program	Date	Time	Description of the Program/Segment
Southwest Spotlight	10/21/2020 10/23/2020	2:00 PM 9:00 AM	Interview with Author Thom McFadden concerning his book dealing with the use of the world wide web to maintain old and find new friend ships for people over 65 effectively using the internet.
Southwest Spotlight	12/02/2020 12/04/2020	2:00 PM 9:00 AM	Interview Dr. Patrice Caldwell Chancellor of the Eastern New Mexico University system concerning the upcoming Virtual ENMU Commencement. The Service will be carried on 3 on Air TV channels and one streaming service. Dr. Caldwell pointed out that the event is designed to honor the graduating students and safely give all involved a memorable and safe Graduation experience.
Here & There	10/12/2020	3:00 PM	What do we know about the coronavirus pandemic, and what don't we know? And why do we lack so much important information? Justin Lessler of Johns Hopkins University is on the cutting edge of epidemiology and has been followed Covid-19 since the first reports out of China. And what do we now know about them?
Here & There	10/19/2020	3:00 PM	President Trump has simultaneously talked down the power of Covid-19 while trying to push up release of a vaccine against the coronavirus. This has turned many Americans against taking a vaccine once one is developed. Peter Pitts of the Center for Medicine in the Public Interest says a vaccine that too few people take is trouble.

Best of Our Knowledge	10/20/2020	3:00 PM	It's no secret, America's public schools are not having a stellar year. As the country continues to grapple with COVID-19, economic uncertainty, and social unrest, securing the funding needed to ensure a well-rounded, top-quality education for all of our nation's students, from pre-K to grade 12, seems more difficult than ever. So why shouldn't concerned parents place their trust in the private sector and vote to support charter schools and voucher programs?
Best of Our Knowledge	11/10/2020	3:00 PM	There's a course at Towson university in Maryland that teaches a class in positive psychology. Today on the Best of Our Knowledge, we'll learn how this class stays positive during a pandemic. We'll also learn how a school system survived a cyberattack, hear how machine learning is helping COVID testing, and spend an Academic Minute with COVID-19 and your singing voice.
51%	11/18/2020	3:00 PM	On this week's 51%, as we seek connections even more during the COVID-19 pandemic, we meet the founder of a salon series intended to gather women and have more meaningful conversations. And Kelly Corrigan talks about her new interview series.
51%	12/30/2020	3:00 PM	On this week's 51%, there is some help for veterans' caregivers during the COVID-19 pandemic; we hear from a CEO trying to break down barriers to obtaining birth control and Dr. Jeri Burns chimes in about charity in the checkout line.
With Good Reason	10/22/2020	3:00 PM	With colder temperatures, how risky is it to dine indoors again? Linsey Marr says plenty risky. The larger droplets that leave our mouths when we talk may be a risk mainly to people at our own table, but the tiny aerosols are like cigarette smoke and can pose a risk to anyone in the room.

Description of the issue:

Climate Change and our Environment

Program	Date	Time	Description of the Program/Segment
With Good Reason	12/10/2020	3:00 PM	What can we learn about climate change from literary figures like Walt Whitman or Cormac McCarthy? Greg Wrenn (James Madison University) says it's a lot more than you might think. He teaches a fascinating class that fuses both creative writing and the natural environment. And: Nick Balascio (William & Mary) has journeyed to the far reaches of the planet, collecting lake sediments that offer clues into environmental change over thousands of years.
Here & There	11/16/2020	3:00 PM	Along with the intended benefits of oil and gas harvested by ordinary drilling and even more so by fracking, there are even larger amounts of what are called waters of production. They are toxic, and often they spill into New Mexico fields, gullies and ground water. Kendra Chamberlain of the NM Political Report on the latest efforts by the State and the industry to deal with poisoned waters from the oil and gas industry.
Here & There	12/14/20	3:00 p.m.	If sometimes, it's hard to see the forest for the trees, it's a lot harder to see when some trees in a forest start

			to migrate somewhere else. Zach St. George's recent book we liked: The Journeys of Trees: A Story About Forests, People and the Future looks at how climate change is affecting our forests and what mother nature and a lot of interested humans are doing to save them. Some are planting seeds in new areas, others are introducing "counterpests" in old forest zones.
Best of our Knowledge	11/03/2020	3:00 PM	Protect the health of the planet and you protect your own health. That's an extremely boiled down version of the new book called "Planetary Health – Protecting Nature to Protect Ourselves". The emerging field of planetary health connects the dots between changes in Earth's environment and the general wellbeing of us humans wandering around the planet. One of the co-editors of the book is Dr. Samuel Myers. Sam Myers is Director of the Planetary Health Alliance and a Principle Research Scientist at the Harvard T.H.

Description of the issue:

Voting and Election Information

Program	Date	Time	Description of the Program/Segment
With Good Reason	10/19/2020	3:00 PM	If you think poll taxes and literacy tests are voting barriers of the past, think again. Gilda Daniels' new book <i>Uncounted: Voter Suppression in the United States</i> explores how updated versions of these barriers—like voter ID laws and misinformation—are undermining our democracy.
Here & There	11/30/2020	3:00 PM	They call 'em para-militias, because no Constitutional Scholar would call them "well-regulated." They've been bringing guns to anti-mask rallies and State Capitols, but fortunately they and their guns heeded President Trump's advice to "Stand Down" on Election Day But for how long will they "Stand By?" Frank Smyth, author of the <i>NRA: An Un-Authorized History</i> on the militias and their roots in the NRA, especially the alarmist myth, from any regulation of guns will go straight to the Holocaust, Joseph Stalin and Pol Pot.

Description of the issue:

Census, 2020

Program	Date	Time	Description of the Program/Segment
Here & There	9/21/2020	3:00 PM	So much depends on getting a correct count of residents of America for the 2020 census, so why is the Trump Administration trying so hard to mess with and shorten the process of counting? Julia Sclafani of Searchlight NM went to a small southern New Mexico town to show what's at stake.
